The ULCA School of Medicine seeks qualified candidates for appointment as Associate Dean for Postgraduate and Regional Medicine. The appointee would have responsibility for postgraduate education for the UCLA School of Medicine and Public Health, and, possibly, for the School of Nursing and to qualify for appointment as Professor in one of the Clinical Departments of the School of Medicine, ideally in the Division of General Internal Medicine and Health Services Research of the Department of Medicine. Extensive and intensive experience in positions with major administrative responsibility for clinical teaching programs such as Director of a large county, V.A. or municipal hospital affiliated with a medical school and experience in the development of remote site clinical teaching programs are essential. Letters of application should include a bibliography and *curriculum vitae* emphasizing the qualifications called for and may be directed to:

Dr. Sherman M. Mellinkoff, Dean
UCLA School of Medicine
Los Angeles, California 90024

UCLA is an Equal Opportunity/Affirmative Action Employer and is desirous of receiving applications from and recommendations of minority and women candidates as well as other qualified persons.

Survey and Evaluation of Approaches To Physician Performance Measurement

Arlene R. Barro, Ph.D.

The purpose of the survey is to provide background information for the selection of performance measurement instruments to be used in connection with the projected follow-up of the longitudinal study of medical students of the class of 1960. The preliminary version of this monograph was prepared for a workshop held in June 1972. This final version incorporates some comments and suggestions received from the workshop consultants and from the review done by the National Center for Health Services Research and Development.
